EMS TRANSMISSION: 6/26/02

Instruction Memorandum No. CA-2002-054

Expires: 09/30/03

To: All California Managers and Supervisors

From: State Director

Subject: Policy on Occupational Safety and Health for California BLM

It is the policy of the Bureau of Land Management to provide safe and healthy working conditions, to prevent employee injuries and work-related illnesses, to prevent visitor injuries, and to protect Bureau owned or leased property from damage. **ALL** Managers are responsible and accountable for **vigorous** implementation and management of the Safety Program and the incorporation of safety conscious work practices for all programs under their jurisdiction. BLM Handbook 1112-2, Safety and Health for Field Operations, contains information and guidance on the Safety Program.

It is my expectation that each of you will incorporate safety into your budget planning process to ensure that appropriate funding, personnel, and other means are allocated to effectively administer the safety program.

It is critical that each of you understand your responsibilities, and I encourage you to become advocates for Occupational Safety and Health in the workplace. We all have a responsibility to prevent accidents, to identify and correct hazards, to provide a healthy work environment, and to provide and use appropriate engineering practices, administrative controls, and/or protective equipment

Assistance in the various aspects of the Safety Program can be obtained from your local Field Office Manager, Field Office Safety Officers or from the State Safety Manager. The Safety Officers are:

<u>Contact</u>	<u>Location</u>	<u>Phone Number</u>
Bruce MacWhinney	Bakersfield	661-391-6059
